### Darrell Scott Concert Fundraiser

The ACPL Foundation presents award winning musician Darrell Scott and opening act, Andy Hackbarth in concert on Sunday, March 6 at 7:30 p.m. in the UW College of Education Auditorium. Tickets are available through the UW Fine Arts Box Office (766-6666).

Sponsors include First Interstate Bank; Lincoln Printing Plus; Caterings of Laramie; D & L Music; UW College of Education; Wyoming Arts Council; Albany County Tourism Board; Comfort Inn Laramie; and ASUW.

### Summer Projects

New asphalt, curbing and striping

### In Planning Stages

Microfilm Reader-printer  
New Carpeting  
ADA Compliant Restrooms

As part of our on-going service improvement, we have added new software to our computers. Computer users will be able to use computers for either 15 or 60 minutes at a time. The computer will warn the user fifteen, ten and five minutes before shutting down. This will allow others to access the computers. If no one is waiting, staff can over-ride the time limit, allowing the user an additional 15 or 60 minutes.

In addition, computers users will have to pay before printing off library computers. This prevents users from getting impatient and printing more than one copy, improves traffic access to the printers and eliminates the honor system in paying for copies.

We will announce the start date for this new system.

### Server Room Planning

This project creates a server room, removing the server from the boiler room, which is a fire hazard and bad for the server. The project should be completed by summer.

### Computer Upgrades, Wireless Internet

We installed a new server in December 2010 because the old server was failing.

We are also installing ZeroClients that incorporate a main frame style set up as well as replacing aging staff computers.

Many people complain about wireless, so we have plans to improve wireless access to the point that the existing building and infrastructure can support. However, we are awaiting funding from the county.

## **Radio Frequency ID**

**This system allows patrons to check out and return library items and allows us to better control inventory**
